See diagram on back of ch. si. paper

DIAGRAM, EXPLANATION, AND INSTRUCTIONS.

The dot in the center of the 1-mile circle represents the site of your office.

The surrounding offices should be carefully located by placing dots on or between the mile circles at the exact distance, and in the right direction from your office, and their names plainly written.

If it should be necessary to designate an office which is over 10 miles from your site, place the dot outside of the 10-mile circle, write the name of such office, and state its distance from your site.

Draw distinctly the railways, roads, rivers, and creeks.

P

DIVISION OF
POSTMASTERS' APPOINTMENTS

PROPOSED LOCATION OF POST OFFICE

IN REPLYING
MENTION INITIALS AND DATE

Post Office Department
FIRST ASSISTANT POSTMASTER GENERAL
Washington

Sir:

With reference to the proposed change in site of the post office named below, and in order that the office if changed to the proposed location may be accurately represented upon the post-route maps, it is requested that you carefully answer the questions below and furnish a sketch according to instructions on opposite side of paper, which should be returned to the First Assistant Postmaster General, Division of Postmasters' Appointments, as soon as possible.

Respectfully,

FIRST ASSISTANT POSTMASTER GENERAL.

Petersburg (Post Office) Boson (County) Ny (State)

If the town, village, or site of the post office be known by another name than that of the post office, state that other name here

		From where?	<u>Ludlow Ky</u>

(Date) July 28-1939

(Signed) Perry Graham Postmaster.

Post office Petersburg Ky

IMPORTANT.—A map or sketch showing the location of your post office must be submitted with the return of this paper. A printed map, such as prepared by the county or city engineer, is preferred, if it can be furnished without expense to the Department. Be sure, however, to mark on it the exact site of the post office, placing a small dot in the proper square or block and on the proper side of the street.

If a separate map cannot be furnished it is necessary to submit a sketch as described below.

These diagrams are furnished simply to make it easier to draw a sketch that will show correct distances from your post office.

SQUARE DIAGRAM

Use this diagram if your post office is located in an area described by section, township, and range, and you have filled in line 3 on the other side. Otherwise use the circular diagram.

Place a small dot representing your post office in the proper quarter-section and fill in the blanks for township and range numbers.

Then draw the following features:
(Note that one-half inch on the paper equals 1 mile on the ground.)

- Adjacent post offices (show with small dots and name).
- Railroads (show by single line with cross marks; name).
- Highways (show by double lines close together and mark U. S. and State numbers; name in margin the post office to which each road leads).
- Rivers, creeks, lakes, etc. (show by wavy lines and name).
- County line (show by dashes).

CIRCULAR DIAGRAM

Use this diagram if your post office is NOT located in an area described by section, township, and range.

Let the dot in the center of the circle represent your post office.

Then draw the features a, b, c, d, and e, as described above. (Note the scale of this diagram: One-quarter inch equals 1 mile.)

710 Rock Road
