

POST OFFICE DEPARTMENT,  
TOPOGRAPHER'S OFFICE,

Washington, August 22, 1885

Sir:

To enable the Topographer of this Department to determine, with as much accuracy as possible, the relative positions of Post Offices, so that they may be correctly delineated on its maps, the Postmaster General requests you to fill up the spaces and answer the questions below, and return the same, verified by your signature and dated, under cover to this Office.

Respectfully, &c.,

W. L. Hildner  
Topographer P. O. Dept.

To POSTMASTER AT Milford  
Bracken Co.  
Kentucky  
Milford

The (P. O. Dept.) name of my Office is

\* Its local name is

It is situated in B part of Milford Precinct Township, County of Bracken, State of Dep quarter of Tract No.

The name of the most prominent river near it is Licking

The name of the nearest creek is North Fork of Licking

This Office is 5 miles from said river, on the North side of it, and is on miles from said nearest creek, on the South side of it.

The name of the nearest Office on route No. 29119 is Petra, and its distance is 3 1/2 miles, by the traveled road, in a N-E direction from this my Office.

The name of the nearest Office, on the same route, on the other side, is Waycross and its distance is 5 miles in a South direction from this my Office.

The name of the nearest Office off the route is \_\_\_\_\_, and its distance by the most direct road is \_\_\_\_\_ miles in a \_\_\_\_\_ direction from this my Office.

This Office is at a distance of 1 1/2 from the Halewood Station of the N. C. Railroad, on the North East side of the railroad.

State, under this, the names of all other Offices near your Office, in different directions from it, and their distances from it by the most direct roads.

\* If the town, village, or site of the Post Office be known locally by another name than that of the Post Office, state that other name here, that it may be identified on any published map of the State (or Territory) if appearing thereon.

EP A diagram of the township (or, where the land is not so divided, a sketch map), showing the precise location of your Office, together with the adjoining Post Offices, towns, or villages, the roads, railroads, and larger streams or creeks, in addition to the above verbal description, will be useful, and is desired.

A correct map of the locality and adjacent country might be furnished by your County Surveyor, but this must be without expense to the Post Office Department; it being, however, for the general interest and advantage of the community to have the Post Offices correctly located on the maps, it may be expected that this will be cheerfully furnished on proper application.

State (in margin of this sheet) whether there is on file at your county seat (court-house), or in the hands of your County Surveyor, a Map of the county.

State also the present Surveyor's name and Post Office address.

(Signature of Postmaster.)

(Date.)

DIVISION OF TOPOGRAPHY

Post Office Department  
FOURTH ASSISTANT POSTMASTER GENERAL  
Washington, Dec 27, 1913

SIR:

In order that the site of your post office may be accurately represented upon the post-route maps, it is requested that you carefully answer the questions below and furnish a sketch, according to instructions on opposite side of paper, which should be returned to this Division as soon as possible. Respectfully,

To Postmaster at Milford

Bracken Co,

Ky.

*[Signature]*  
Fourth Assistant Postmaster General.

The name of my post office is Milford

If the town, village, or site of the post office be known by another name than that of the post office, state that other name here: \_\_\_\_\_

My post office is situated in the South part of \_\_\_\_\_ Township,  
or in \_\_\_\_\_ quarter of tract \_\_\_\_\_ Number \_\_\_\_\_ Township,

County of Bracken, State of Ky

The name of the nearest river is \_\_\_\_\_, and the post-office building is at a distance of \_\_\_\_\_ on the \_\_\_\_\_ side of it.

The name of the nearest creek is North Fork of Jackson, and the post-office building is at a distance of 100 yds on the west side of it.

The name of the nearest office on my route is Brooksville  
and its distance is 10 miles, by the traveled road, in a North direction from this, my office.

The name of the nearest office on my route, on the other side, is Bratton  
and its distance is 4 miles, in a East direction from this, my office.

The name of the nearest office not on my route is Claysville  
and its distance is 5 miles, by the traveled road, in a South direction from this, my office.

The post-office building is on the \_\_\_\_\_ side of the \_\_\_\_\_ Railroad,  
and at a distance of \_\_\_\_\_ from the track.

The railroad station name is \_\_\_\_\_

My post office is 2 miles, air-line distance, 5 from the nearest point of my county boundary.

Postmaster: *[Signature]*

Date: Jan 2, '14

DIAGRAM, EXPLANATION, AND INSTRUCTIONS.

The dot in the center of the 1-mile circle represents the site of the post office.  
The surrounding offices should be carefully located by placing dots on or between the mile circles at the exact distance, and in the right direction, from the post office, and their names plainly written.  
Draw distinctly the railways, roads, rivers, and creeks.

(Date)

**IMPORTANT.**—A map showing the location of the post office must be submitted with the return of this paper. A highway map such as prepared by State, county, or local agencies is preferred, if it can be furnished without expense to the Department. Be sure, however, to mark on it the exact site of the post office, placing a small dot in the proper square or block and on the proper side of the street.

If no map can be furnished it is necessary to draw a sketch on one of the diagrams below.

### INSTRUCTIONS

These diagrams are furnished simply to make it easier to draw a sketch that will show correct distances from the post office.

#### SQUARE DIAGRAM

Use this diagram if the post office is located in an area described by section, township, and range, and you have filled in line 3 on the other side. Otherwise use the circular diagram.

Place a small dot representing the post office in the proper quarter-section and fill in the blanks for township and range numbers.

Then draw the following features: (Note that one-half inch on the paper equals 1 mile on the ground.)

- Adjacent post offices (show with small dots and name).
- Railroads (show by single line with cross marks; name).
- Highways (show by double lines close together and mark U. S. and State numbers; name in margin the post office to which each road leads).
- Rivers, creeks, lakes, etc. (show by wavy lines and name).
- County line (show by dashes).

#### CIRCULAR DIAGRAM

Use this diagram if the post office is NOT located in an area described by section, township, and range.

Let the dot in the center of the circle represent the post office.

Then draw the features a, b, c, d, and e, as described above. (Note the scale of this diagram: One-quarter inch equals 1 mile.)
