Boone County Cemeteries

It has been estimated that there are over 300 cemeteries in Boone County. However, only 196 have been mapped and documented. The majority of cemeteries in Boone County are small, privately-owned family cemeteries that are in various states of disrepair.

Cemeteries provide valuable genealogical and historical information about Boone County's past. As a finite resource, once a cemetery disappears the record of those buried in the cemetery may also disappear.

Please contact the Johnson-Wilson Cemetery Stewards Association or the Boone County Planning Commission if you are aware of a cemetery not listed in the Boone County Historic Cemeteries brochure or if you wish to receive assistance and advice on the proper maintenance of a cemetery on your property.

Old Burlington Cemetery
