BROOKSVILLE HIGH SCHOOL

On the same five-acre lot, with the \$50,000 school building above, erected in 1923, now stands another brick structure of equal beauty, erected by PWA grant during the summer of 1939.

The old frame school, Brooksville's first high school, was destroyed by fire in 1917. A temporary tar-paper school served from 1917 to 1923.

The brick gymnasium was built in 1925, at a cost of \$18,000.

Serving on the school board, 1923 and 1925, were H. H. Poage, John C. Kalb, Omar Myers, W. E. Thompson and J. W. Byrne.

No bond issue was made to build the high school and gymnasium. Citizens loaned the money, and accepted participation receipts on anticipated taxes, and were paid percentage on same each year.
