

Care of the Postmaster of

STATEMENT.

The proposed office will be called

[The name of the candidate for postmaster should not be applied as the name of a post office. It is preferable to have some LOCAL or PERMANENT name, which must not be the name of any other office in the State; and you should aim to select a name not appropriated to any office in the United States.]

It will be situated in the 7th quarter of Section 36, Township 10

Range 10, in the County of Boonville, State of Kentucky
It will be on or near route No. 9830, being the route from Millford
to Galmaroth, on which the mail is now carried 1 time per week.

The contractor's name is Mrs. Kavana. Marshall

Will it be directly on this route?—Ans. it is

If not, how far from and on which side of it?—Ans. None

How much will it INCREASE the travel of the mail one way each trip?—Ans. None

Where will the mail leave the present route to supply the proposed office?—Ans. Millford no place

Where intersect the route again?—Ans. None

What post office will be left out by this change?—Ans. None

The name of the nearest office to the proposed one, on the same route, is Thimble
its distance is 4 miles, in a west direction from the proposed office.

The name of the nearest office on the same route, on the other side, is Millford
its distance is 5 miles, in a east direction from the proposed office.

The name of the nearest office to the proposed one, off the route, is Hazansville
distance by the most direct road is 5 miles, in a south direction from the proposed office.

State the names of the other offices near the proposed one, their directions and distances from it by the most direct roads.

Ans. Hazansville 7 miles North

The name of the most prominent river near it is Dickins River

The name of the nearest creek is Willow

The proposed office will be 3 miles from said river, on the North
side of it, and will be on miles from said nearest creek, on the East side of it.

If it be a village, state the number of inhabitants.—Ans. 30

If not, state the number of families within two miles.—Ans. 10

Also, the number of families within one-half the distance to the next office.—Ans. 10

A diagram, or sketch from a map, showing the position of the proposed new office, with neighboring river or creek, roads, and other post offices, towns, or villages near it, will be useful, and is therefore desired.

A correct map of the locality might be furnished by the county surveyor, but this must be without expense to the Post Office Department.

ALL WHICH I CERTIFY to be correct and true, according to the best of my knowledge and belief,
this 30 day of July, 1868 Elyah Begon

I CERTIFY, That I have examined the foregoing statement, and that it is correct and true, to the best of my knowledge and belief.

A. B. Flynn Postmaster of Thymville

POST OFFICE DEPARTMENT,

TOPOGRAPHER'S OFFICE,

Washington, August 22, 1855.

Sir:

To enable the Topographer of this Department to determine, with as much accuracy as possible, the relative positions of Post Offices, so that they may be correctly delineated on its maps, the Postmaster General requests you to fill up the spaces and answer the questions below, and return the same, verified by your signature and dated, under cover to this Office.

Respectfully, &c.,

W. L. Sullivan
Topographer P. O. Dept.

To POSTMASTER AT

Brookville
Bracken Co.
Kentucky

The (P. O. Dept.) name of my Office is

* Its local name is

It is situated in

part of

Township, or in

Division of Topography
U.S. DEPARTMENT OF THE INTERIOR
BUREAU OF GEOGRAPHIC NAMES

Post Office Department
FOURTH ASSISTANT POSTMASTER GENERAL

Washington., Dec 27, 1913.

SIR:

In order that the site of your post office may be accurately represented upon the post-route maps, it is requested that you carefully answer the questions below and furnish a sketch, according to instructions on opposite side of paper, which should be returned to this Division as soon as possible.

Respectfully,

To Postmaster at Brooksville

Bracken Co.,

Ky.

Fourth Assistant Postmaster General.

The name of my post office is Brooksville Ky.

If the town, village, or site of the post office be known by another name than that of the post office, state that other name here: _____

My post office is situated in the Center part of County A. S. Township, or in _____ quarter of tract _____ Number _____ Name _____ Township,

County of _____ State of _____

The name of the nearest river is Ohio and the post-office building is at a distance of 10 miles on the S side of it.
N., S., E., or W.

The name of the nearest creek is Locust and the post-office building is at a distance of _____ on the _____ side of it.
N., S., E., or W.

The name of the nearest office on my route is _____ and its distance is _____ miles, by the traveled road, in a _____ direction from this, my office.
N., S., E., or W.

The name of the nearest office on my route, on the other side, is _____ and its distance is _____ miles, in a _____ direction from this, my office.
N., S., E., or W.

The name of the nearest office not on my route is _____ and its distance is _____ miles, by the traveled road, in a _____ direction from this, my office.
N., S., E., or W.

The post-office building is on the South side of the Brooksville Railroad, and at a distance of about 14 m from the track.

The railroad station name is Brooksville Ky.

My post office is 6 miles air-line distance, West from the nearest point of my county boundary.

Postmaster: H. H. Pogue

Date: Jan 27th 1914.

DIAGRAM, EXPLANATION, AND INSTRUCTIONS.

The dot in the center of the 1-mile circle represents the site of the post office.
 The surrounding offices should be carefully located by placing dots on or between the mile circles at the exact distance, and in the right direction, from the post office, and their names plainly written.
 Draw distinctly the railways, roads, rivers, and creeks.

IMPORTANT.—A map or sketch showing the location of your post office must be submitted with the return of this paper. A printed map, such as prepared by the county or city engineer, is preferred, if it can be furnished without expense to the Department. Be sure, however, to mark on it the exact site of the post office, placing a small dot in the proper square or block and on the proper side of the street.

If a separate map cannot be furnished it is necessary to submit a sketch as described below.

These diagrams are furnished simply to make it easier to draw a sketch that will show correct distances from your post office.

SQUARE DIAGRAM

Use this diagram if your post office is located in an area described by section, township, and range, and you have filled in line 3 on the other side. Otherwise use the circular diagram.

Place a small dot representing your post office in the proper quarter-section and fill in the blanks for township and range numbers.

Then draw the following features:
(Note that one-half inch on the paper equals 1 mile on the ground.)

- Adjacent post offices (show with small dots and name).
- Railroads (show by single line with cross marks; name).
- Highways (show by double lines close together and mark U. S. and State numbers; name in margin the post office to which each road leads).
- Rivers, creeks, lakes, etc. (show by wavy lines and name).
- County line (show by dashes).

CIRCULAR DIAGRAM

Use this diagram if your post office is NOT located in an area described by section, township, and range.

Let the dot in the center of the circle represent your post office.

Then draw the features *a*, *b*, *c*, *d*, and *e*, as described above. (Note the scale of this diagram: One-quarter inch equals 1 mile.)
