

POST OFFICE DEPARTMENT,

TOPOGRAPHER'S OFFICE,

Washington, August 26, 1875.

Sir:

To enable the Topographer of this Department to determine, with as much accuracy as possible, the relative positions of Post Offices, so that they may be correctly delineated on its maps, the Postmaster General requests you to fill up the spaces and answer the questions below, and return the same, verified by your signature and dated, under cover to this Office.

Respectfully, &c.,

W. W. Jackson

Topographer P. O. Dept.

To POSTMASTER AT Grants Lick
Campbell Co.

Kentucky

Grants Lick P. O.

The (P. O. Dept.) name of my Office is _____

* Its local name is _____

It is situated in cutter part of _____ Township, or in _____ quarter of Tract No. _____
Township, County of Campbell, State of Kentucky.

{ The name of the most prominent river near it is Licken
The name of the nearest creek is Philips.

{ This Office is 3 miles from said river, on the East- side of it, and is
6 rods miles from said nearest creek, on the West- side of it.

{ The name of the nearest Office on route No. 20101 is Clayville, and its
distance is 4.4 miles, by the traveled road, in a Northern-direction from this my Office.

{ The name of the nearest Office, on the same route, on the other side, is Gubler
and its distance is 4.4 miles in a North East-direction from this my Office.

The name of the nearest Office off the route is Clayville, and its
distance by the most direct road is 4.4 miles in a Northern-direction from this my Office.

This Office is at a distance of 3.4 from the Benton Station of
the R. R. Railroad, on the West- side of the railroad.

State, under this, the names of all other Offices near your Office, in different directions from it, and their
distances from it by the most direct roads.

* If the town, village, or site of the Post Office be known locally by another name than that of the Post Office, state that other
name here, that it may be identified on any published map of the State (or Territory,) appearing thereon.

✓ A diagram of the territory (where the land is not so divided, a sketch map,) showing the precise
location of your Office and the adjoining Post Offices, towns, or villages, the roads, railroads, and larger streams or creeks,
in addition to the above verbal description, will be useful, and is desired.

A correct map of the locality and adjacent country might be furnished by your County Surveyor, but this must be without
expense to the Post Office Department; it being, however, for the general interest and advantage of the community to have the Post
Office correctly located on the maps; it may be expected that this will be cheerfully furnished on proper application.

State (on margin of this sheet) whether there is on file at your county seat (court-house), or in the hands of your County
Surveyor, a Map of the county.

State also the present Surveyor's name and Post Office address.

(Signature of Postmaster.) *Henry Haffman*

(Date.) *Sept. 17. / 85-*

FOURTH ASSISTANT POSTMASTER GENERAL

Washington Feb 25, 1914.

Sir:

In order that this office may determine, with as much accuracy as possible, the relative positions of Post Offices, so that they may be correctly delineated on its maps, please carefully answer the questions below, and furnish the diagram on the other side, returning the same as soon as possible, verified by your signature and dated.

Respectfully,

John D. Hanley
Second request.

Fourth Assistant Postmaster General.

To Postmaster at Grants Lick
Campbell Co.

KY.
Grants Lick

The (P. O. Dept.) name of my Office is _____
If the town, village, or site of the Post Office be known by another name than that of the Post Office, state that other name here:

My Office is situated in _____ part of _____ Township, or in _____ quarter of Tract
7th Magisterial District Township, County of *Campbell*

State of *Kentucky*

The name of the most prominent river near it is *Licking River*
The name of the nearest creek is *Phillips Creek*

My Office is *4* miles from said river, on the *East* side of it, and is *100 yards* miles from said nearest creek, on the *North* side of it.

My Office is on Mail Route No. *29431*, head of route

My Office is a Special Office supplied from RFD No 4, Cemetery 7 miles distant.

The name of the nearest Office on my route is *Claryville*, and its distance is *4 1/4* miles, by the traveled road, in a *North* direction from this, my Office.

The name of the nearest Office, on the same route, on the other side, is *None* and its distance is *None* miles in a *west* direction from this, my Office.

The name of the nearest Office off the route is *Kenion*, and its distance by the most direct road is *4* miles in a *west* direction from this, my Office.

My Office is at a distance of _____ from the track of the *not on any Railroad* Railroad, on the _____ side of the railroad.

My Office is *4* miles, air-line distance, from nearest point of my County boundary.

(Signature of Postmaster)

John D. Hanley
(Date) March 3rd 1914

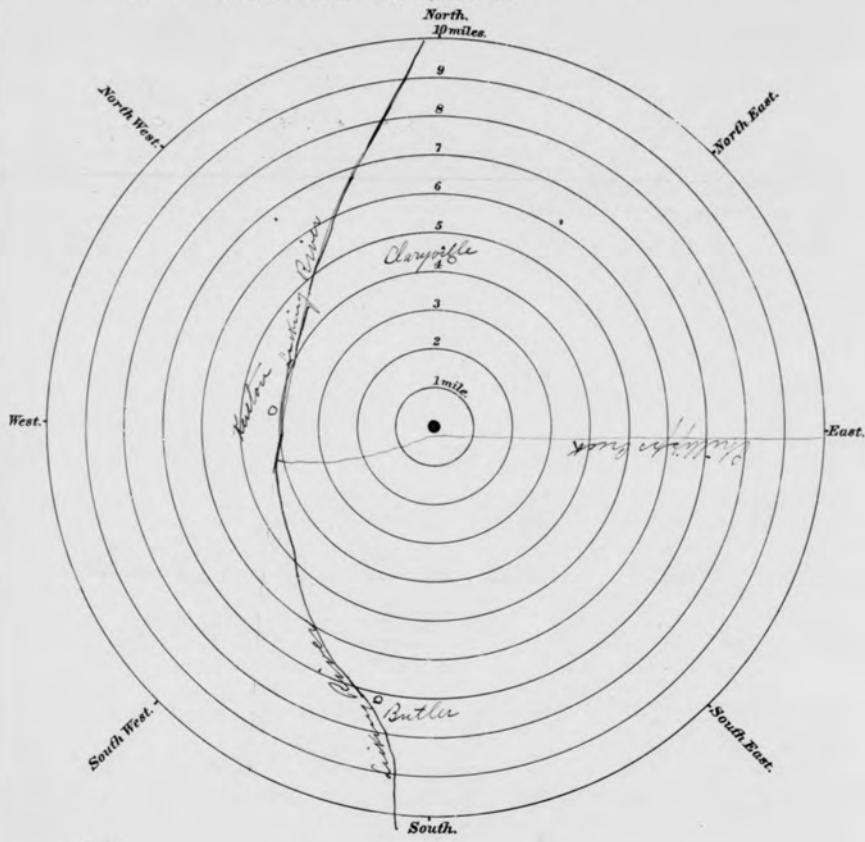

DIAGRAM, EXPLANATION, AND INSTRUCTIONS.

The dot in the center of the 1-mile circle represents the site of your office.

The surrounding offices should be carefully located by placing dots on or between the mile circles at the exact distance, and in the right direction from your office, and their names plainly written.

If it should be necessary to designate an office which is over 10 miles from your site, place the dot outside of the 10-mile circle, write the name of such office, and state its distance from your site.

Draw distinctly the railways, roads, rivers, and creeks.

F.L.

Post Office Department
FOURTH ASSISTANT POSTMASTER GENERAL
Washington

RETURN TO
DIVISION OF TOPOGRAPHY

Postmaster,

JUL 20 1939

GRANTS LICK,

IMPORTANT.—A map or sketch showing the location of your post office must be submitted with the return of this paper. A printed map, such as prepared by the county or city engineer, is preferred, if it can be furnished without expense to the Department. Be sure, however, to mark on it the exact site of the post office, placing a small dot in the proper square or block and on the proper side of the street.

If a separate map cannot be furnished it is necessary to submit a sketch as described below.

These diagrams are furnished simply to make it easier to draw a sketch that will show correct distances from your post office.

SQUARE DIAGRAM

Use this diagram if your post office is located in an area described by section, township, and range, and you have filled in line 3 on the other side. Otherwise use the circular diagram.

Place a small dot representing your post office in the proper quarter-section and fill in the blanks for township and range numbers.

Then draw the following features: (Note that one-half inch on the paper equals 1 mile on the ground.)

- a. Adjacent post offices (show with small dots and name).
- b. Railroads (show by single line with cross marks; name).
- c. Highways (show by double lines close together and mark U. S. and State numbers; name in margin the post office to which each road leads).
- d. Rivers, creeks, lakes, etc. (show by wavy lines and name).
- e. County line (show by dashes).

CIRCULAR DIAGRAM

Use this diagram if your post office is NOT located in an area described by section, township, and range.

Let the dot in the center of the circle represent your post office.

Then draw the features a, b, c, d, and e, as described above. (Note the scale of this diagram: One-quarter inch equals 1 mile.)
