DIAGRAM, EXPLANATION, AND INSTRUCTIONS.

The dot in the center of the 1-mile circle represents the site of your office.

The surrounding offices should be carefully located by placing dots on or between the mile circles at the exact distance, and in the right direction from the proposed one, and their names plainly written.

If it should be necessary to designate an office which is over 10 miles from the proposed one, place the dot outside of the 10-mile circle, write the name of such office, and state its distance from the proposed one.

Draw distinctly the railways, roads, rivers, and creeks.
