

Proposed Location of Post Office

DIVISION OF RURAL MAILS

IN REPLYING
MENTION INITIALS AND DATE

Post Office Department

FOURTH ASSISTANT POSTMASTER GENERAL

Washington

Sir:

With reference to the proposed change in site of the post office named below, and in order that the office if changed to the proposed location may be accurately represented upon the post-route maps, it is requested that you carefully answer the questions below and furnish a sketch according to instructions on opposite side of paper, which should be returned to this Division as soon as possible. Respectfully,

FOURTH ASSISTANT POSTMASTER GENERAL.

Post office, Jonesville
(Name)
Grant Co.
(County)
W. Va.
(State)

The name of the post office is

If the town, village, or site of the post office be known by another name than that of the post office, state that other name here:

The post office, if changed to the proposed site, would be 110 ft. air-line distance
(N., S., E., or W.) from its present location.

The post office would be situated in the _____ part of _____ Township,
or in _____ quarter of tract _____, State of _____
County of Grant (Number.) (Name.)

The name of the nearest river is Ohio river and the post-office building
would be at a distance of 12 miles on the South side of it.
(N., S., E., or W.)

The name of the nearest creek is Brush creek and the post-office building
would be at a distance of 1 1/4 mile on the East side of it.
(N., S., E., or W.)

The name of the nearest office on the same route as this post office is Long Ridge
and its distance is 5 miles, by the traveled road, in a South direction from the proposed site of this office.
(N., S., E., or W.)

The name of the nearest office on the same route, on the other side, is _____
and its distance is _____ miles, in a _____ direction from the proposed site of this office.
(N., S., E., or W.)

The name of the nearest office not on the same route as this post office is Folsom
and its distance is 7 miles, by the traveled road in a North direction from the proposed site of this office.
(N., S., E., or W.)

The post-office building would be on the _____ side of the _____
Railroad, and at a distance of _____ from the track. The railroad station
name is _____
(N., S., E., or W.)

The post office would be 15 ft. air-line distance East direction
from the nearest point of my county boundary.
(N., S., E., or W.)

(Signature of Postmaster)

Otis C. Wilson
(Date) May 1st 1914

The dot in the center of the 1-mile circle represents the proposed site of the post office.
The surrounding offices and the present site of this office should be carefully located by placing dots on or between the mile circles at the exact distance, and in the right direction, from the post office, and their names plainly written.
Draw distinctly the railways, roads, rivers, and creeks.

(Date) Aug - 2 - 1939

(Signed)

Margaret D. Sanford
Postmaster.

Post office

Jonesville, Ky

8-11874

IMPORTANT.—A map or sketch showing the location of your post office must be submitted with the return of this paper. A printed map, such as prepared by the county or city engineer, is preferred, if it can be furnished without expense to the Department. Be sure, however, to mark on it the exact site of the post office, placing a small dot in the proper square or block and on the proper side of the street.

If a separate map cannot be furnished it is necessary to submit a sketch as described below.

These diagrams are furnished simply to make it easier to draw a sketch that will show correct distances from your post office.

SQUARE DIAGRAM

Use this diagram if your post office is located in an area described by section, township, and range, and you have filled in line 3 on the other side. Otherwise use the circular diagram.

Place a small dot representing your post office in the proper quarter-section and fill in the blanks for township and range numbers.

Then draw the following features:
(Note that one-half inch on the paper equals 1 mile on the ground.)

- Adjacent post offices (show with small dots and name).
- Railroads (show by single line with cross marks; name).
- Highways (show by double lines close together and mark U. S. and State numbers; name in margin the post office to which each road leads).
- Rivers, creeks, lakes, etc. (show by wavy lines and name).
- County line (show by dashes).

CIRCULAR DIAGRAM

Use this diagram if your post office is NOT located in an area described by section, township, and range.

Let the dot in the center of the circle represent your post office.

Then draw the features a, b, c, d, and e, as described above. (Note the scale of this diagram: One-quarter inch equals 1 mile.)

Scale: 1/4 inch equals 1 mile
